

EFFECTS - CANNONS

CONFETTI CANNON-3

Confetti cannon

Air compressed cannon for spreading over the audience lightweight products like confetti, streamers, papers, etc.

It includes an air tank with 3 outlets for adapting 3 cannons in order to make 3 shots without reloading. Each of the three cannons is manufactured with an independent adjustable shooting angle that must be

oriented at the same time that the other ones.

A security valve is incorporated.

Remote control module with blocking key for shooting push buttons.

Reference: 26000016

Weight	18 Kg.
Dimensions	725x360x1260 mm (cannons in a vertical position)
Exterior finish	Black colour
Power supply	Single-phase 230V 50Hz

Other characteristics:

Power absorbed 15W

Type of charge Inductive

Maximum pressure 8 bar

Tank capacity 6 litres

Room temperature from 0°C to +40°C
