

## ARCHITECTURAL LIGHTING - ALBA SYSTEM

### DEMUX 6 A

Convertor of DMX-512 digital signal into 0-10-V DC analogue signal (6 channels)

Interface between devices of ALBA series using DMX512 standard control signal.

It converts DMX signal into 6 analogue 0-10 V DC signals.

Addressing by three rotary switches.

It is prepared to be fixed on DIN 35 rail.

Reference: 24000059

*Weight* 0.4 Kg.

*Dimensions* 158x86x58

*Exterior finish* White colour

*Power supply* Single-phase 230V 50Hz

#### *Other characteristics*

Protection Auto-protected

Power supply conductor section 1.5mm<sup>2</sup>

Power supply connection Through terminals

Signal connection Through terminals

Digital signal DMX-512

Output signal 0-10V DC x 6
