

CONTROL - DMX ACCESSORIES

MIXER 2-1 (RACK) // MIXER 2-1 (BOX) // MIXER 2-1 (EMBEDDED)

2-in 1-out mixers

Mixer for DMX-512 signal with two inputs and one output. Mixer displacement is chosen through DMX-512 channel selector.

Output signals are optoisolated. Input and outputs are protected against overvoltage too.

There are leds to confirm input signals, output signal and mains.

This product is available in fly case (BOX), 1-unit rack 19" (RACK) or the embedded version for Wall dimmers (EMBEDDED).
