

## PILOT SERIES - GUARD LIGHTS

### POWER SUPPLY PILOT LINE 12W // 50W

#### 12-Watt // 50-Watt power supply for Pilot Line

Pilot Series was created to satisfy the needs of illuminating spaces where people must displace without having a lot of light.

It is a 12-Watt power supply for Pilot Line products. With only one power supply, some Pilot Lines can be supplied, if they are connected between them, to

light lineal long stretches.

To calculate the total amount of power supplies and lights, it must be assumed that 1 lineal meter of PILOT LINE, no matter which type is, has 1-W consumption.
